24	Friday	

Committee Reports

Audit Committee - Met today with auditors. Administration will be going through the review of this past school year during the month of August and then will present to the Board sometime in September. We also met with the internal auditors and we went through the risk assessment report and we're on target.

Policy Committee - There is a list on the website of policies that were reviewed. An updated listing will be on the website of what has been done by the end of this month. Briefly spoke about transportation and the cell phone policy and can present that on the June 29th.

Technology Committee - Have not met since our last meeting. We have begun the iPad initiative. We have 900 iPads that have arrived. Staff development is going to begin on June 17th. Thanks to the many teachers who have spent a lot of time exploring the different devices and apps and now this is the next stage to enhance learning.

Facilities Committee - We met on June 3rd. The Board received a list of improvement repairs and district cleaning that will take place over the summer. We recently had the high school bleachers repaired and we will have NYSIR inspect them. The high school south side parking lot is having the drain replaced and the sidewalk will be re-poured. We're also looking into the piping that goes into the drain with cameras to be sure that the pipe is clear. We're having the maintenance shop diesel tank removed and replaced and that has to be done by July 2015. We will also be looking into the Connolly tank repair during the summer.

Superintendent's Report - Presentation

Middle School Research Program Update - Students got to display their work in the media center prior to the **Site Based Committee Reports** - Each school presented on what they have done over this past school year. Some
